

Report on grants for the year ended 31st March 2017

CAFOD delivered an overall programme of over £52 million during 2016/17; with £5.9 million (11%) spent on raising funds and £46.5 million (89%) spent on CAFOD's charitable programmes.

	53%	36%	11%		

In 2016/17 CAFOD spent £28m on grants and programme payments made up of; 640 grants to third parties totalling £26.77m, plus payments made in support of partners for programme activities totalling £1.59m, reduced by foreign currency exchange gains of £0.48m.

Grants are made within long term strategies agreed with our partners, with grants for international development programmes often made on a three-year basis. Programme payments are programme activities related to partner grants that are managed by CAFOD, often made where several partners are working together within an overall thematic programme.

Before individual grants and CAFOD managed programme activity budgets are agreed, project proposals are subject to a formal assessment and approval. All projects are systematically monitored for the duration of their existence, and major projects are subject to a final evaluation review.

Total grants and programme payments in 2016/17 were lower than in the prior year largely because of the high level of emergency response grant spending in 2015/16, in response to the major humanitarian emergencies in both the Philippines and Nepal.
