

Dear Prime Minister,

We are proud of the UK's commitment made as part of the Paris Agreement to endeavour to limit global temperature rise to 1.5C. This will limit the worst effects of climate change on our health, homes and communities and people living in poverty around the world. Will you support a by-2045 net zero greenhouse gas emissions reduction target, and enshrine this in law within the lifetime of this Parliament?

Yours sincerely,

Petition organiser
