Spread the word

Use social media

Share your page on Facebook, Twitter, LinkedIn, or any other social media platform that you use! Just one share can raise £5 more, so why not share your page every time you update it?

Email all your contacts

Email your friends, family, and fellow parishioners to tell them about your event, and ask them to donate. This will get the ball rolling with donations, and encourage people to follow suit!

Contact your parish

Promote your event through your parish. Parish emails, the parish newsletter and website, or an announcement at an online mass are just some of the ways you can get your parish involved in your event!
